

Martin Gorick

007

Churches need to be..

▶ Present and
Engaged

Growing New Churches and Congregations

Church Plants and
Fresh Expressions

Working with many partners to see
new communities flourish

Over the next 5 years we will:

- ▶ Recruit a Programme Manager
- ▶ Develop 2 new Resourcing Hubs
- ▶ Enable 7 new Church Grafts or Plants able to grow to 100+ people
- ▶ Rejoice in 50 new Fresh Expressions or new congregations of any shape or size

Table Discussion

What are the people and places that your current parish ministry does not reach?

What could make the difference?

Questions..

Haven't we got more than enough churches already?

Is this taking resource away from rural mission and ministry?

Do small fresh expressions of church really make a difference?

Will the church plants all be of the same tradition?

Are we surrendering to a church growth agenda ruled by numbers?

Who will broker and encourage these developments?

*Will this lead to a more sustainable
Diocese in the future?*

*Is this about human endeavour or
God's grace?*

Be Part
Of It !
