## **Using Churches Creatively**

### Tips and Case studies

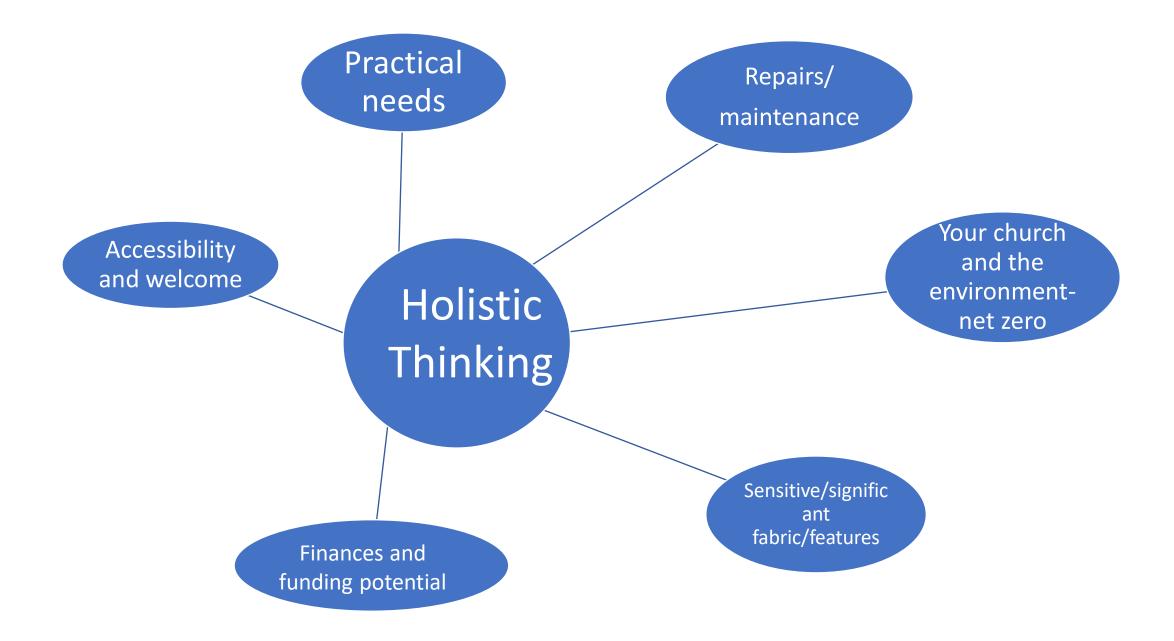

- Consider what makes your church special/unique
- Consult your local community to ask
  - Unmet needs- worship and outreach?
  - What does the building do well? What needs improvement?
  - Which user groups would use the church?
  - Added value: Can people offer time/skills?
- How to consult? Paper surveys, online, or in person
- Engage folk wearing several hats

- People first, then facilities: not "build it and they will come"
- Focus on what's possible now- experiment with TROs, signage, access ramps, makeshift tea points and portaloos
- Future-proof, not fantasy
- Consider phasing into manageable projects

#### **Repair Café frequently asked questions:** what's a repair cafe?

We are a group of volunteers of many differing skills who want to fix your stuff. what repairs can you do?

We have needleworkers, carpenters, electronic & mechanical engineers & handy folk. We can sew, solder, glue, sharpen, patch, weld, disassemble, diagnose, rebuild & more.

#### Do I have to book?

No! Just turn up. Items are repaired in order of arrival and it's always best to come early!

#### Can I bring more than one item?

Yes! But if we're busy, subsequent items have to queue again. Do I have to pay for a repair?

There is no charge for our services, but any parts have to be provided or paid for. Voluntary donations are invited to cover running costs of the café and church.

#### hen and where is the café?

The second Saturday of the month at St Michael's church, Aston Clinton Next café : Saturday 9th April 9am till noon.

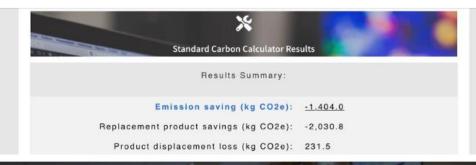

Aston Clinton Repair Cafe October 9, 2022 · 🚱

...

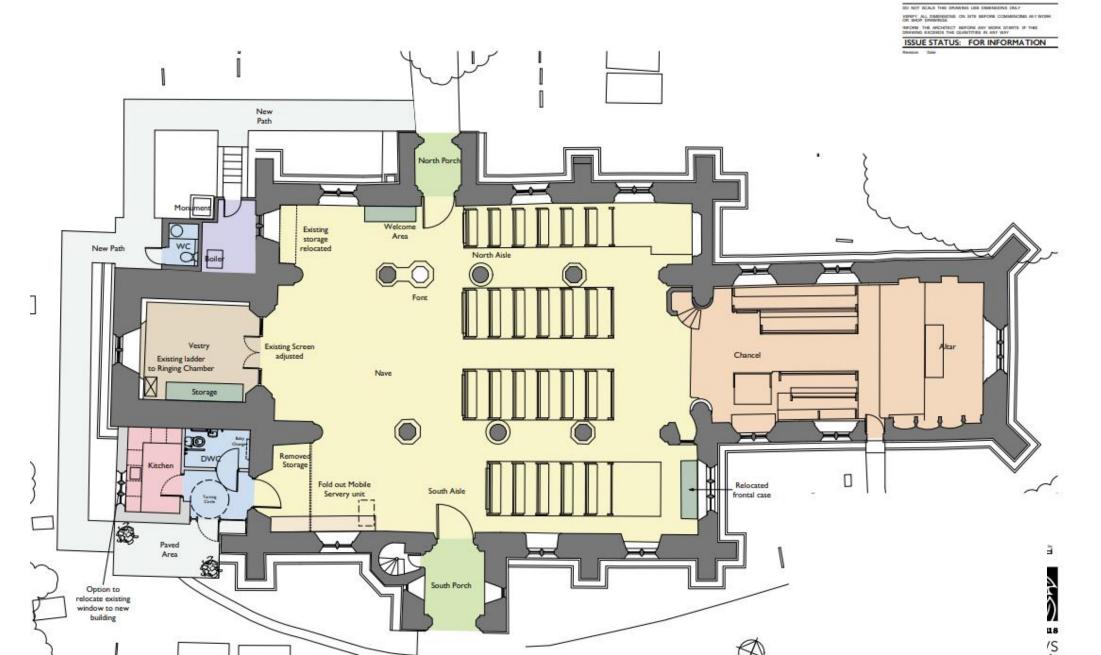

Thank you to everyone who volunteered at and visited the repair café yesterday. It was a record breaker, with 94 items coming in for repair. 67 of those were repaired on the spot, with others requiring parts or going away for later repair. This equated to a saving of nearly 1.5 tonnes of CO2 emissions!

Our next café is on November 12th. Hope to see you there!
